To Whom It May Concern,

Climate-KIC is Europe's largest public-private innovation partnership focused on climate change, consisting of dynamic companies, the best academic institutions and the public sector. We are one of three Knowledge and Innovation Communities (KICs) created in 2010 by the European Institute of Innovation and Technology (EIT). We integrate education, entrepreneurship and innovation resulting in connected, creative transformation of knowledge and ideas into economically viable products or services that help to mitigate climate change. One of our flagship global education programmes is the Climathon running over in 100 cities throughout the world simultaneously on the 27th October, 2017.

This letter is to confirm that 2018 Climathon in Tehran was hosted by the Institute for Karafarinan Tossee Hezare Sevom (IKATES), as ORGANIZER and MANAGER for the event. (Address: 1 Level, Social Services Building, West 37th Alvand Street, Argentina Square, Tehran, Iran. Tel fax: 00982143852609, www.sbconf.ir, email: info@sbconf.ir.) The organization team was led by Zahra Golaj and Bahareh Rezaie Almannghadim. They applied and were authorized by Climate-KIC as the official Climathon 2018 organizers/managers in Iran. IKATES therefore is considered as the main organizer of the Tehran Climathon in 2018 and thus part of the Climathon cities community.

Kindest regards,

Orsolya Barna

Climathon manager

Education manager Hungary
